

meridianEMR, Inc. and MedEvolve, LLC announce enhanced EHR and Practice Management partnership.

FOR IMMEDIATE RELEASE - Livingston, NJ – September 8, 2010 – meridianEMR, Inc., a leading provider of electronic health records systems, electronic prescribing, and advanced healthcare analytics, and MedEvolve LLC, a leading provider of practice management and revenue cycle management services today announced they will take their long term partnership to the highest level, and provide complete integration between their EHR and PM products.

"Based upon our excellent working relationship and many successful implementations with MedEvolve we believe this is in the best interest of all our clients", stated Michael Custode, CEO of meridianEMR, Inc. "We will be replacing our HL7 transactions with an integration engine strategy that couples the meridianEMR and MedEvolve databases **and provides full integration from the patient portal all the way through the check out process.** This will continue to provide our clients with the optimum specialty specific solution".

Successful partners since 2005, with hundreds of providers using the integrated meridianEMR- meridianPM (MedEvolve) solution, **the two client centric companies agreed to share technical resources to expedite this comprehensive process.**

"We are extremely excited to move forward to the next level in our partnership", stated Jay Davison, President of MedEvolve. "Meaningful Use has raised the bar for tighter integration, and in order to provide the most value for our mutual clients we must synchronize our development teams and our development strategy" added Davison. "The full integration with the meridianEMR patient portal is one of the keys to improving the efficiencies of our client's offices. **We believe that a combined development approach is the right solution and that meridianEMR is the clear partner of choice.**"

About meridianEMR, Inc.:

meridianEMR offers an interoperable EHR solution compatible with physician practice management systems and advanced healthcare analytics. The meridianEMR, Inc. application is CCHIT certified until 2014 (pre-market and e-prescribing conditional status) and Surescripts certified.

The interoperability of the meridianEMR software is driven by the proprietary mXchange™ technology which services all meridianEMR clients through a private, highly secure, real time data exchange network. meridianEMR has a user base of over 900 practicing urologists and 5,000 users nationwide composed of a wide range of practice sizes. meridianEMR has had an over 98% success rate in its EHR solution installations, and was recently named to the INC. 5000 list for the second consecutive year.
